Hiring

中国互联网络安全大会

360互联网安全中心

Hackers will not always be waiting in your office in a suit with a resume in hand.

Emphasize training and growth opportunities not salary.

Reach out to potential employees at conferences, social media and via easter eggs on your website.

Maintaining

中国互联网络安全大会

360互联网安全中心

Hackers do not need to be catered to, they do need to feel like they are understood.

Showing recognition for a job well done cost no money but is also priceless!

Making allowances for slight deviances from the standard pays off greatly in keeping a happy and productive workforce.
