The background features a hand pointing towards a large circular interface. This interface is composed of concentric circles and a ring of various icons representing different aspects of technology and security, such as a printer, a magnifying glass, a target, a line graph, a shield, a shopping cart, a calendar, a mouse cursor, a Wi-Fi symbol, a document, an '@' symbol, a laptop, a smartphone, a person icon, and gears. In the center of this circular interface is a large, stylized padlock icon.

Put yourself out there.
