Hustler Casino Live is a poker stream where top players and occasional newcomers are invited to play a real money game of poker on the stream.

Games have exceeded \$1 million buy-ins.

On November 29th, 2022, Robbi Jade Lew was accused of cheating and winning an all-in \$269,000 pot.

WHY

Security Experts.

with

Gaming Experts.

A GLI Company (GAMING LABORATORIES INTERNATIONAL)

BULLETPROOF

Look for evidence of cheating, address the conspiracies, figure out all the ways one could cheat, and report on how to close the gap.

This is a war story.

This is why you hire hackers.

**This is how security
conferences (mainly DEFCON)
and the community have
helped me.**

Pro Poker Rocked By Alleged Cheating Scandal Where Winner Repaid \$269K To Loser

 **Robbi Jade Lew** 
@RobbiJadeLew

Garrett blocked me. Guilty as charged. What an honest man. He cornered me & threatened me. If he has the audacity to give me the death stare ON camera, picture what it's like OFF camera. I was pulled out of the game & forced to speak to him in a dark hallway. Full details to come

One thing is certain, and that is a number of poker players have said they believe her refunding the money was an admission of guilt. [Bart Hanson](#), the commentator during the stream, argued that her paying back the money made him [less likely to believe cheating occurred](#). So, why did she pay it back?

Investigation Finds Staffer Stole \$15K in Poker Chips from Robbi Jade Lew

CARD SHUFFLERS

MULTIPLE CASINO CARD SHUFFLERS AND PATENTS.

Like voting machines, you can buy them online.

HOW IT WORKS

@dougpolkpoker

SINGLE DECK SHUFFLERS

- Only knows there are 52.
- RNG Randomly Shuffles
(cuts or riffles the deck over and over)

MULTI DECK SHUFFLERS

- Knows the cards and the count.
- Good for multi-deck games.
- RNG orders the cards by their face value.

**Both have firmware || software,
and bunches of fun wires!**

- Can be checked against a lab-certified hash value.**

**If a shuffling device (or any type
of system) knows what the
values are, then so can an
attacker that has access.**

Inspect shuffler for foreign devices.

Check Hashes.

Secure shuffler between games.

Have the dealer give it a quick riffle and cut. Not a 100% solution, but better.

Seal shuffler with tamper-proof tape or better, and (redacted).

MATH

Academia provides a foundation with key subjects and equips you with critical thinking skills.

DEFCON and other conventions will throw stuff at you in a non-traditional way that will continue to diversify your skills and blow your mind at the same time.

Absolute knowledge is an unattainable ideal, but as you build your human network, you will have a resource of friends that, combined, are everything! This is a great place to make lifelong friends!

A jack of all trades, master of none, but better than a master of one.

“A human being should be able to change a diaper, plan an invasion, butcher a hog, design a building, conn a ship, write a sonnet, balance accounts, build a wall, set a bone, comfort the dying, take orders, give orders, cooperate, act alone, solve an equation, analyze a new problem, pitch manure, program a computer, cook a tasty meal, fight efficiently, die gallantly. Specialization is for insects.”

— Robert Anton Wilson, *Prometheus Rising*
