AFFILIATE RULES

The oldest international [Ransomware] LockBit affiliate program welcomes you.

We are located in the Netherlands, completely apolitical and only interested in money. We always have an unlimited amount of affiliates, enough space for all professionals. It does not matter what country you live in, what types of language you speak, what age you are, what religion you believe in, anyone on the planet can work with us at any time of the year. First and foremost, we're looking for cohesive and experienced teams of pentesters. In the second turn we are ready to work with access providers: sale or on a percentage of redemption, but you have to trust us completely. We provide a completely transparent process - you can control the communication with the victim. In case when the company was encrypted and has not paid, you will see the stolen data in the blog. We also work with those who don't encrypt networks, but just want to sell the stolen data, posting it on the largest blog on the planet.

Brief description of functionality:

- admin panel on the Tor network;
- communication with companies on the Tor network, chat with notifications and file transfer;
- the ability to create private chats for secret communication with companies;
- automatic decryption of test files;
- automatic decrypter output, by pressing the button in the panel;
- possibility of maximum protection of the decrypter, in this case the decrypter is stored on the flash drive;
- StealBit stealer, searchable by file name and extension;
- automatic data uploading to the blog, by you personally without our participation;
- Possibility to specify any Internet port in StealBit for downloading, for example 22 or 3389, to bypass network security policies;
- The ability to upload pictures to the blog;
- Ability to post the history of correspondence with the attacked company to the blog;
- ability to generate builds with different settings, but with one encryption key for one corporate network;
- 2 different encryption lockers for Windows in one panel, written by different programmers, allowing to encrypt the network twice, if time allows, it will

Hi,I am a researcher and just published about you. Do you know who I am? Will you talk with me?

LockBitupp

+++
I love you.You best researcher.

ASK THEM ABOUT THEMSELVES

LockBitupp
Stay online for a quick response

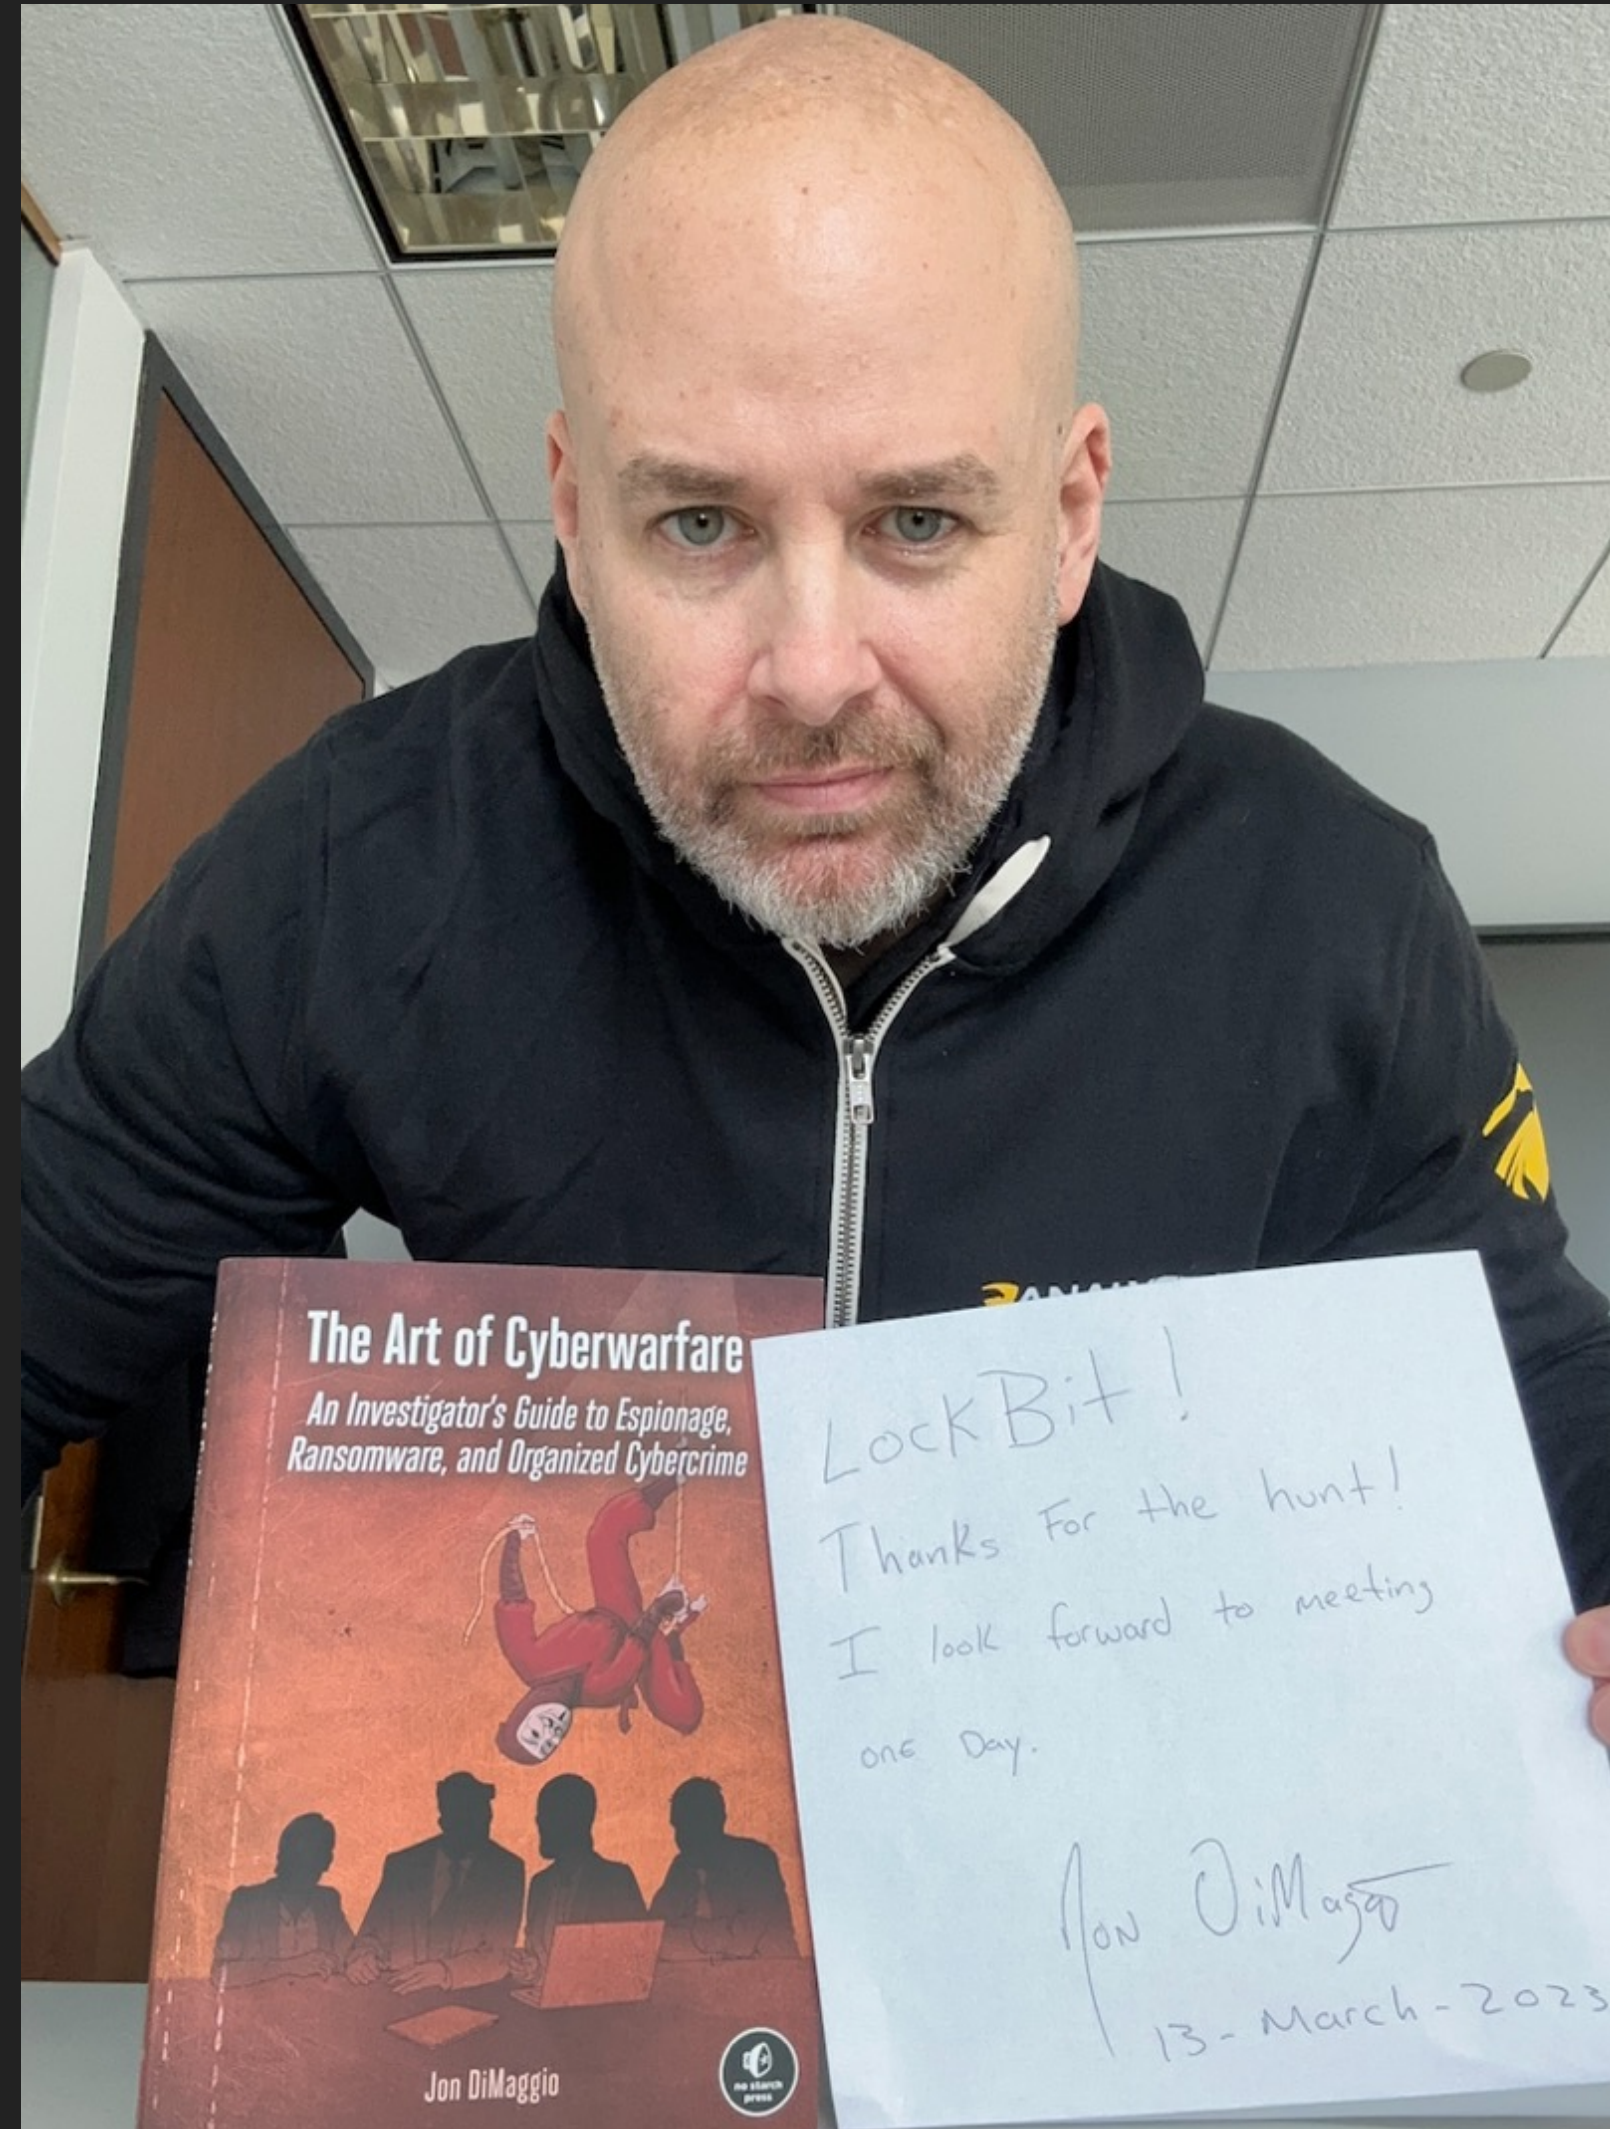

LockBitupp

Before I started hacking I studied OPSEC, usually everyone does the opposite, first breaking the law and only then when it's too late start taking care of security. I deliberately started my life with OPSEC because I wanted to get into cybercrime, and only when I got enough knowledge in OPSEC did I start my criminal activity with peace of mind without fear of being caught by the FBI.

What is the reason you write personal messages to "competitors" asking to be given access to their software?

The difference between us is that you live within limits all your life and do what you are told, pay a share to the FSB, you make meaningless ransom rebrands, and I do what I want.

megabyte

Seller

Posted June 15

LockBitSupp

ANALYST1[®]

THERE WAS ANOTHER MAN!

THE SITE IS NOW UNDER CONTROL OF LAW ENFORCEMENT

This site is now under the control of The National Crime Agency of the UK, working in close cooperation with the FBI and the international law enforcement task force, 'Operation Cronos'.

HELLO FROM THE NCA

Hello [REDACTED] Law Enforcement has taken control of Lockbit's platform and obtained all the information held on there. This information relates to the Lockbit group and you, their affiliate. We have source code, details of the victims you have attacked, the amount of money extorted, the data stolen, chats and much, much more. You can thank Lockbitsupp and their flawed infrastructure for this situation.....we may be in touch with you very soon.

If you would like to contact us directly, please get in touch.

In the meantime, we would encourage you to visit the Lockbit leaksite.

Have a nice day.

Regards,
The National Crime Agency of the UK, the FBI, Europol, and the Operation Cronos Law Enforcement Task Force.

LockBit Ransomware Gang Claims Responsibility for Attack on Saint Anthony Hospital

Posted By Steve Alder on Feb 2, 2024

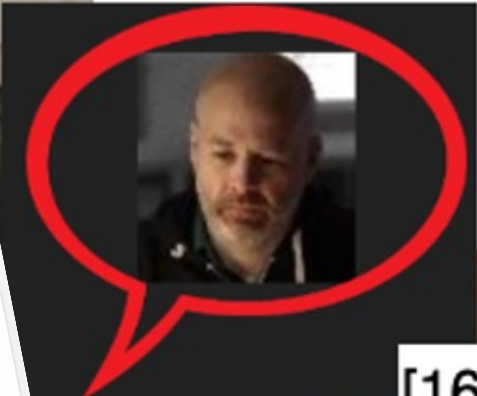

LockBit shows no remorse for ransomware attack on children's hospital

It even had the gall to set the ransom demand at \$800K ... for a nonprofit

DON'T FUCK WITH KIDS!

[16:36:25] **Not-Jon:** You have St. Anthony's Hospital in Chicago on your list. It's a hospital that helps **children** with serious diagnoses like **cancer**. **Innocent children are suffering** because of this attack right now. **Do the right thing**. The "you" that I have got know is greedy, but hurting kids is not your thing.

[16:55:55] **LockBitSupp:** You need to read less yellow press, we have their financial documents, when the leak happens you can study them and realize it's not what you thought it was.

sickkids.ca
We formally apologize for the attack on sickkids.ca and give back the decryptor for free, the partner who attacked this hospital violated our rules, is blocked and is no longer in our affiliate program.

SAY GOODBYE

YOU AIN'T GOTTA GO HOME
BUT YOU CAN'T STAY HERE

LockBitSupp, you are a smart guy. You said it's not about the money anymore, and you want to have a million victims before you stop, but sometimes you need to know when to walk away. It is that time, my old friend. You have always been real with me, and I want to be real with you. Take your money and go enjoy your life before you end up in a situation where you can't. Much like REvil, you have pushed things too far. It's time to move on. I don't hate you; I hate what you do, and I did not enjoy putting you on blast today because we have known one another for a long time. The truth is if I didn't do this today, someone else would. I have too much respect for you as an adversary to watch you get picked apart by some clown with an OSINT handbook, which is all it would take now that your identity is known. With our history, it needed to come from me. It's time to move on. -Jon
