The Malware Museum

Mikko Hypponen

The Malware Museum is a collection of malware programs, usually viruses, that were distributed in the 1980s and 1990s on home computers. Once they infected a system, they would sometimes show animation or messages that you had been infected.

A new cybersecurity museum has opened in Helsinki

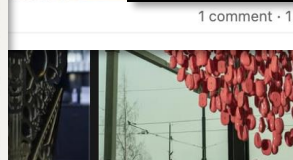

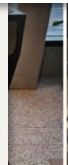

Aleksi Kolehmainen 28.11.2024 17:00 TIVI IN ENGLISH CYBER SECURITY

The museum invites the public to explore the world of cyber threats and reflect on the importance of digital security in today's society.

Imagine if looming cyber threats, things we usually see in the news, could be transformed into something tangible, interactive. That's what the Museum of Malware Art is trying to do in Helsinki, Finland, in November 2024.

Eilen avattiin @withsecure :n uuden toimitalon aulaan Välimerenkatu 11:een Museum of Malware Art, haittaohjelmien museo. Pysyvässä näyttelyssä on nykytaiteilijoiden teoksia, jotka ovat saaneet inspiraationsa tietokoneviruksista ja muista haittaohjelmista. Ekassa kuvassa vaaleanpunaisista hiiristä koostuva "Click for Love" on Hugo Lankinen ja Kasper Hildénin yhteistyö, toisessa kuvassa on graafinen esitys Iikka Kuuselan "W/Threadscape"-teoksesta. Interaktiivisessa teoksessa "Araneomorph" on Joey Holderin ja Joey Holderin "Araneomorph"-veistos, joka on taiteilijan näkemys haittaohjelmista.

Kyberturvallisuuteen keskittyvä maksuton museo avasi ovensa Helsingissä

25. 11. 2024 20:31

Maksuton museo kutsuu yleisön tutkimaan kyberuhkien maailmaa ja pohtimaan digitaalisen turvallisuuden merkitystä nyky-yhteiskunnassa.

KYBERTURVALLISUUS | Teksti: Jyri | 20.11.2024

Maailman ensimmäinen kyberturvallisuuden taidemuseo avattiin Helsinkiin

Helsinkiin aukeaa tällä viikolla maailman ensimmäinen kyberturvallisuuteen keskittyvä taidemuseo. Virusten, haittaohjelmien ja muiden turvallisuusuhkien vaikutusta ihmisiin ja yhteiskuntaan. Suomen kansainvälisten taiteilijoiden teokset purkavat kyberturvallisuuden mystiikkaa ja kutsuvat haittaohjelmien luovia, eettisiä ja yhteiskunnallisia kysymyksiä.

Writing adventure games like *Peter Jaffe* ("Bad Thing") was a basic skill for home computer hobbyists in the 1980s.

Text-based adventures like *Polar Jutsu* were written for the Commodore 64 everywhere in Finland, but unlike most others, *Polar Jutsu* was distributed. The game and its three sequels were published in *Polar Magazine*, a magazine distributed on floppy disks by Protocol Productions. Publishing a total of six episodes of *Polar Jutsu*, each one more complicated than the last, paved way for the authors' success as semi-well-known players at E-Space. The game on display is the first of the series.
