

gpwn: Wiretapping Fiber ISP Deployments From the Comfort of Your Home

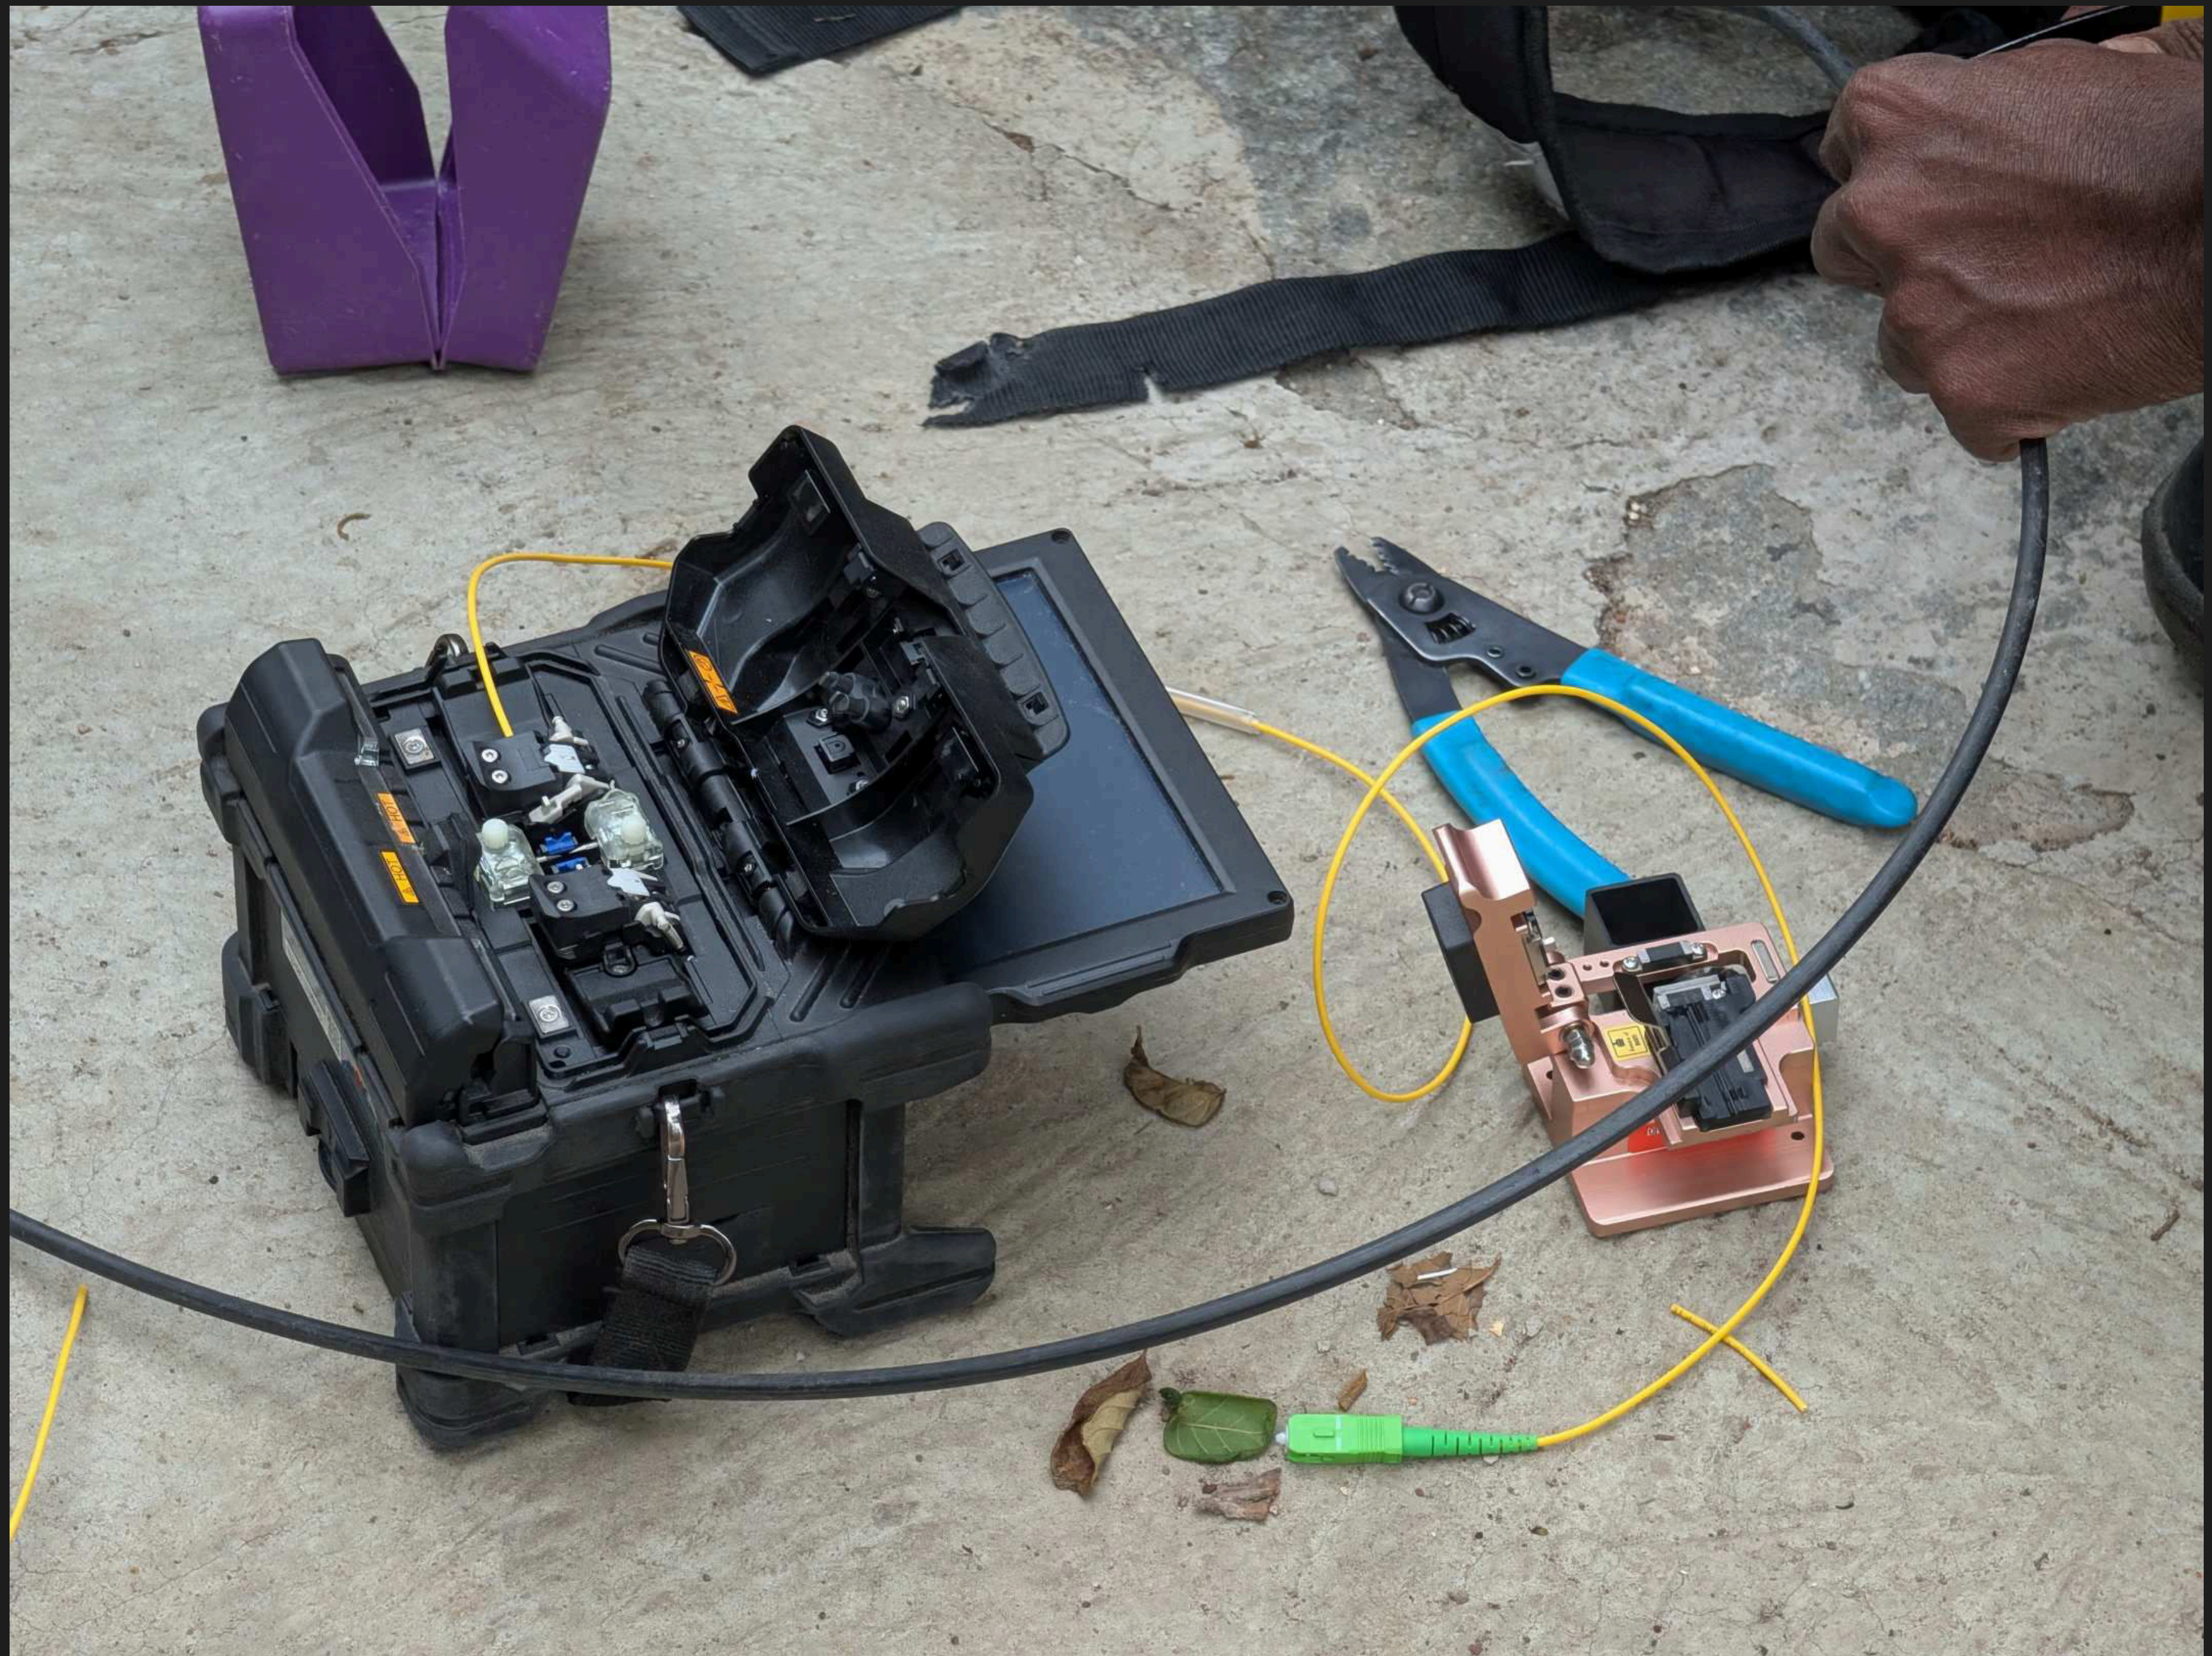

Rithvik Vibhu
Rithwik Jayasimha

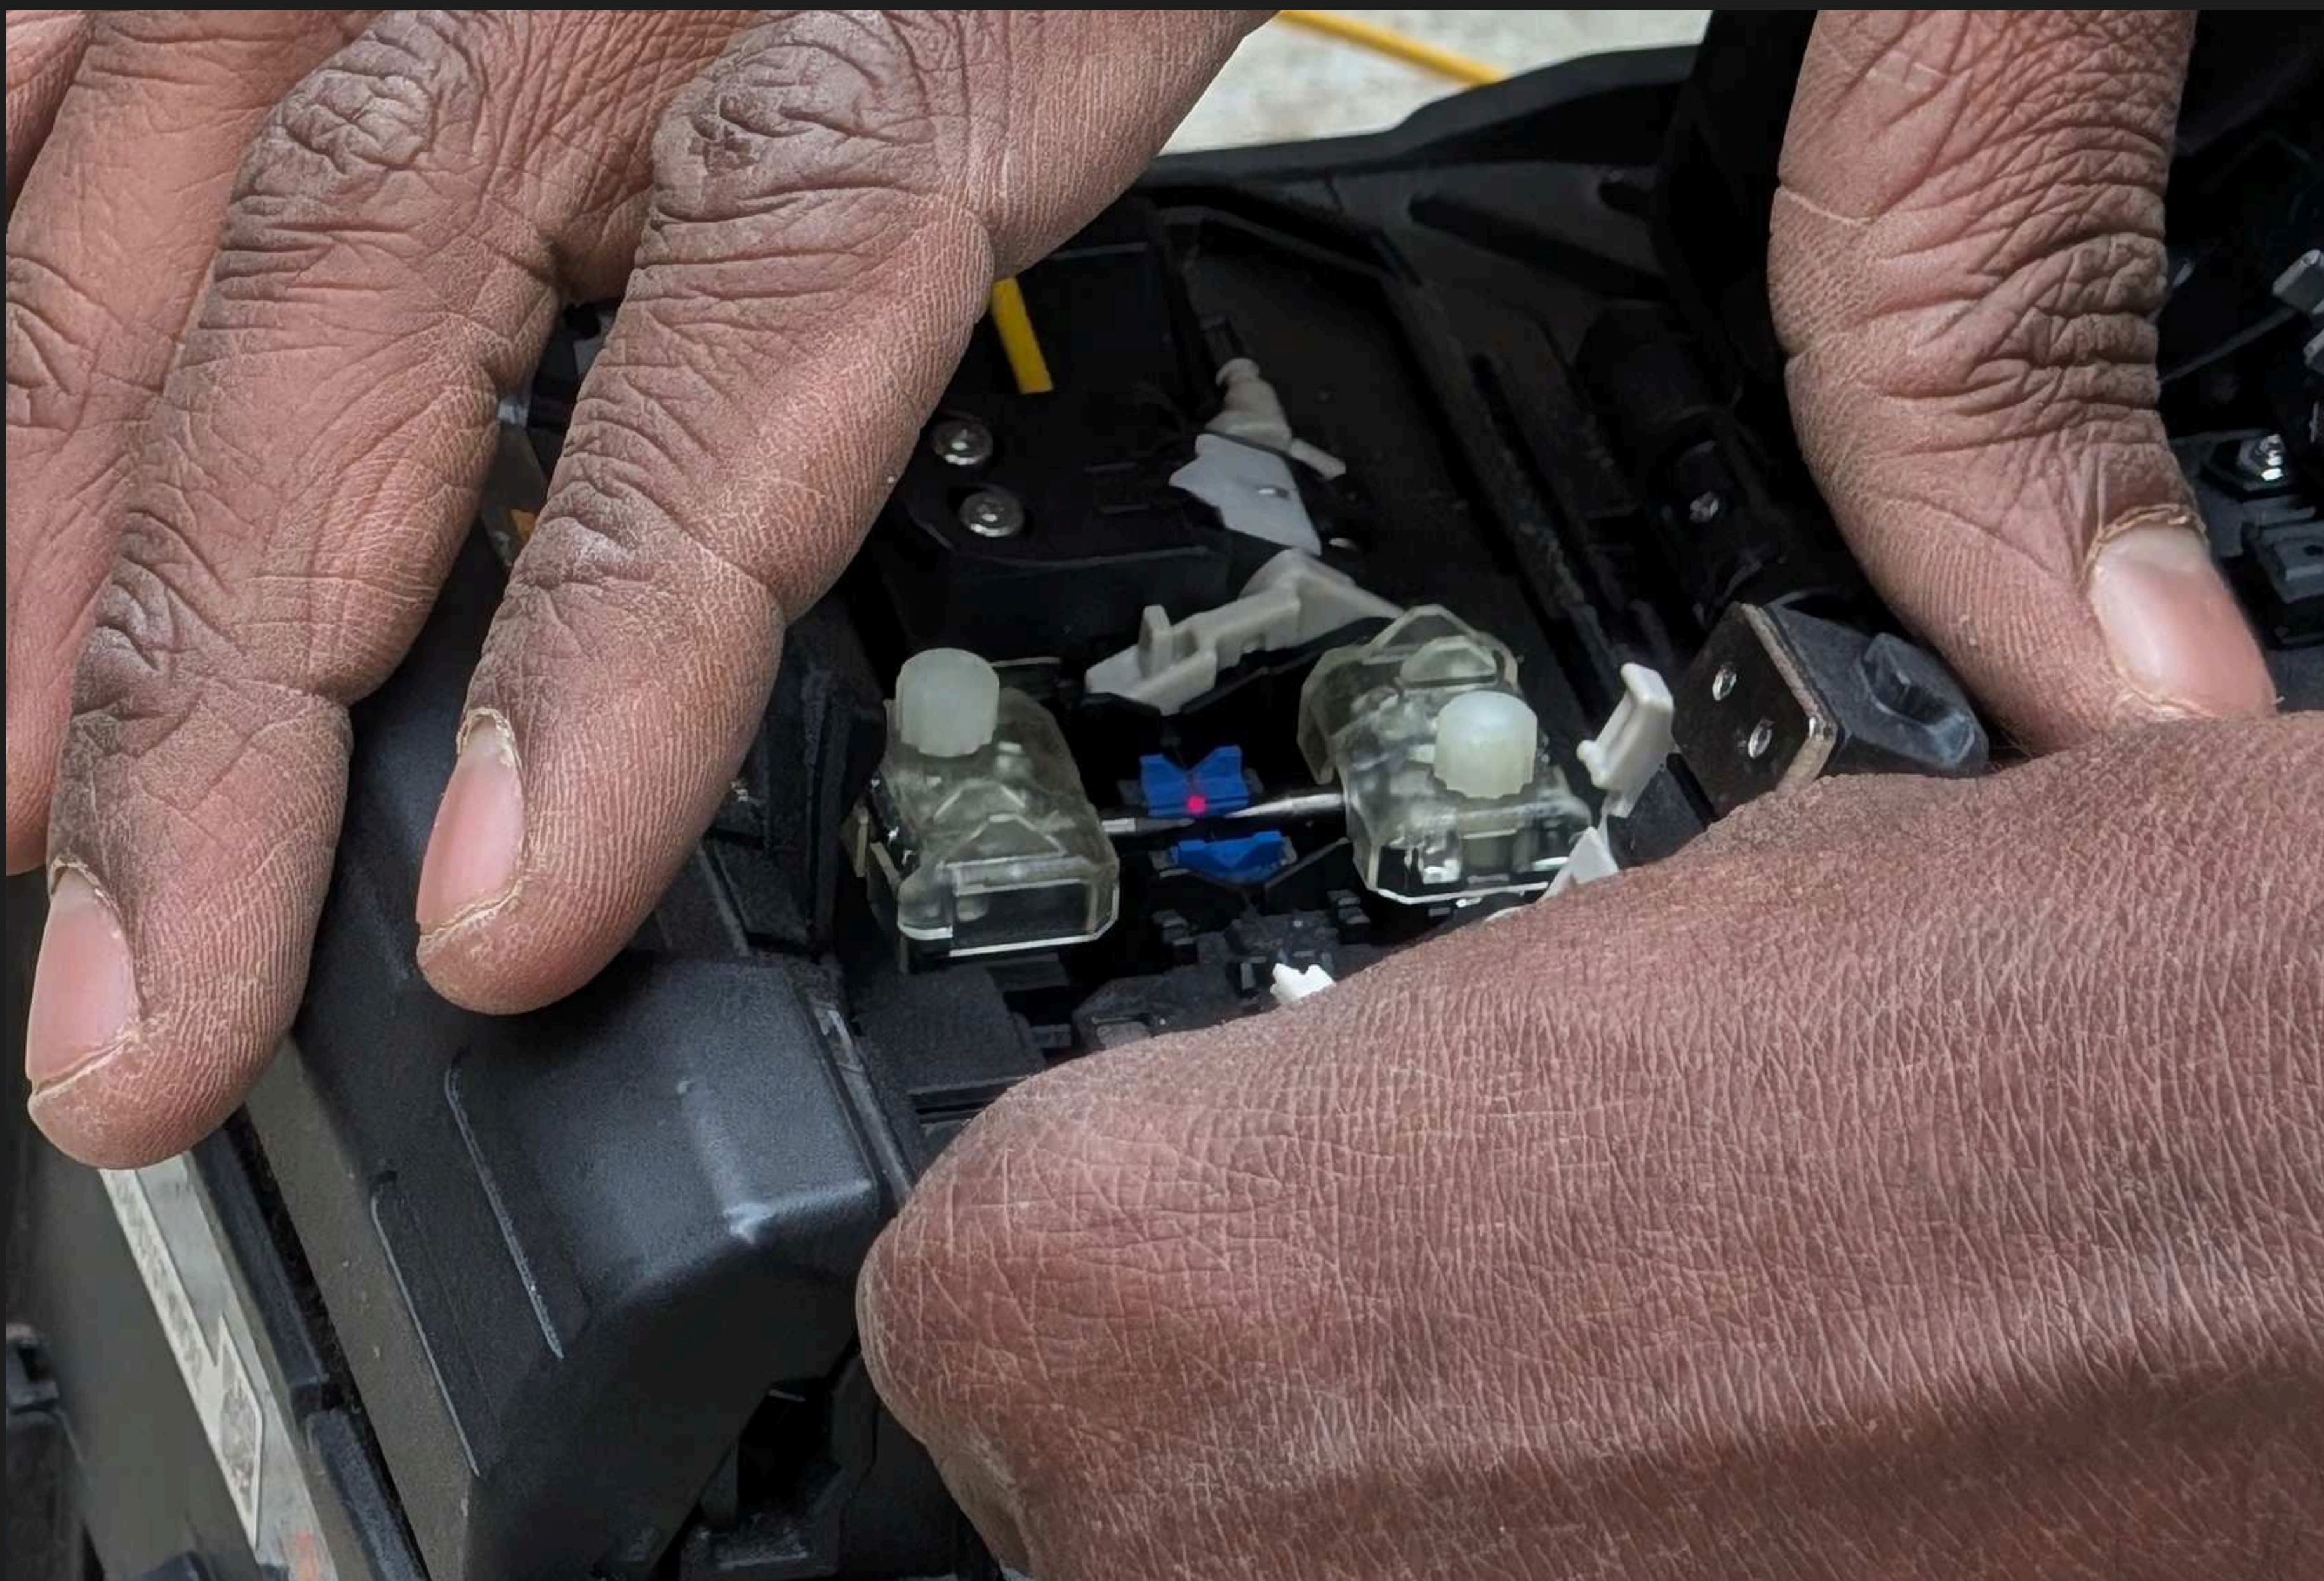

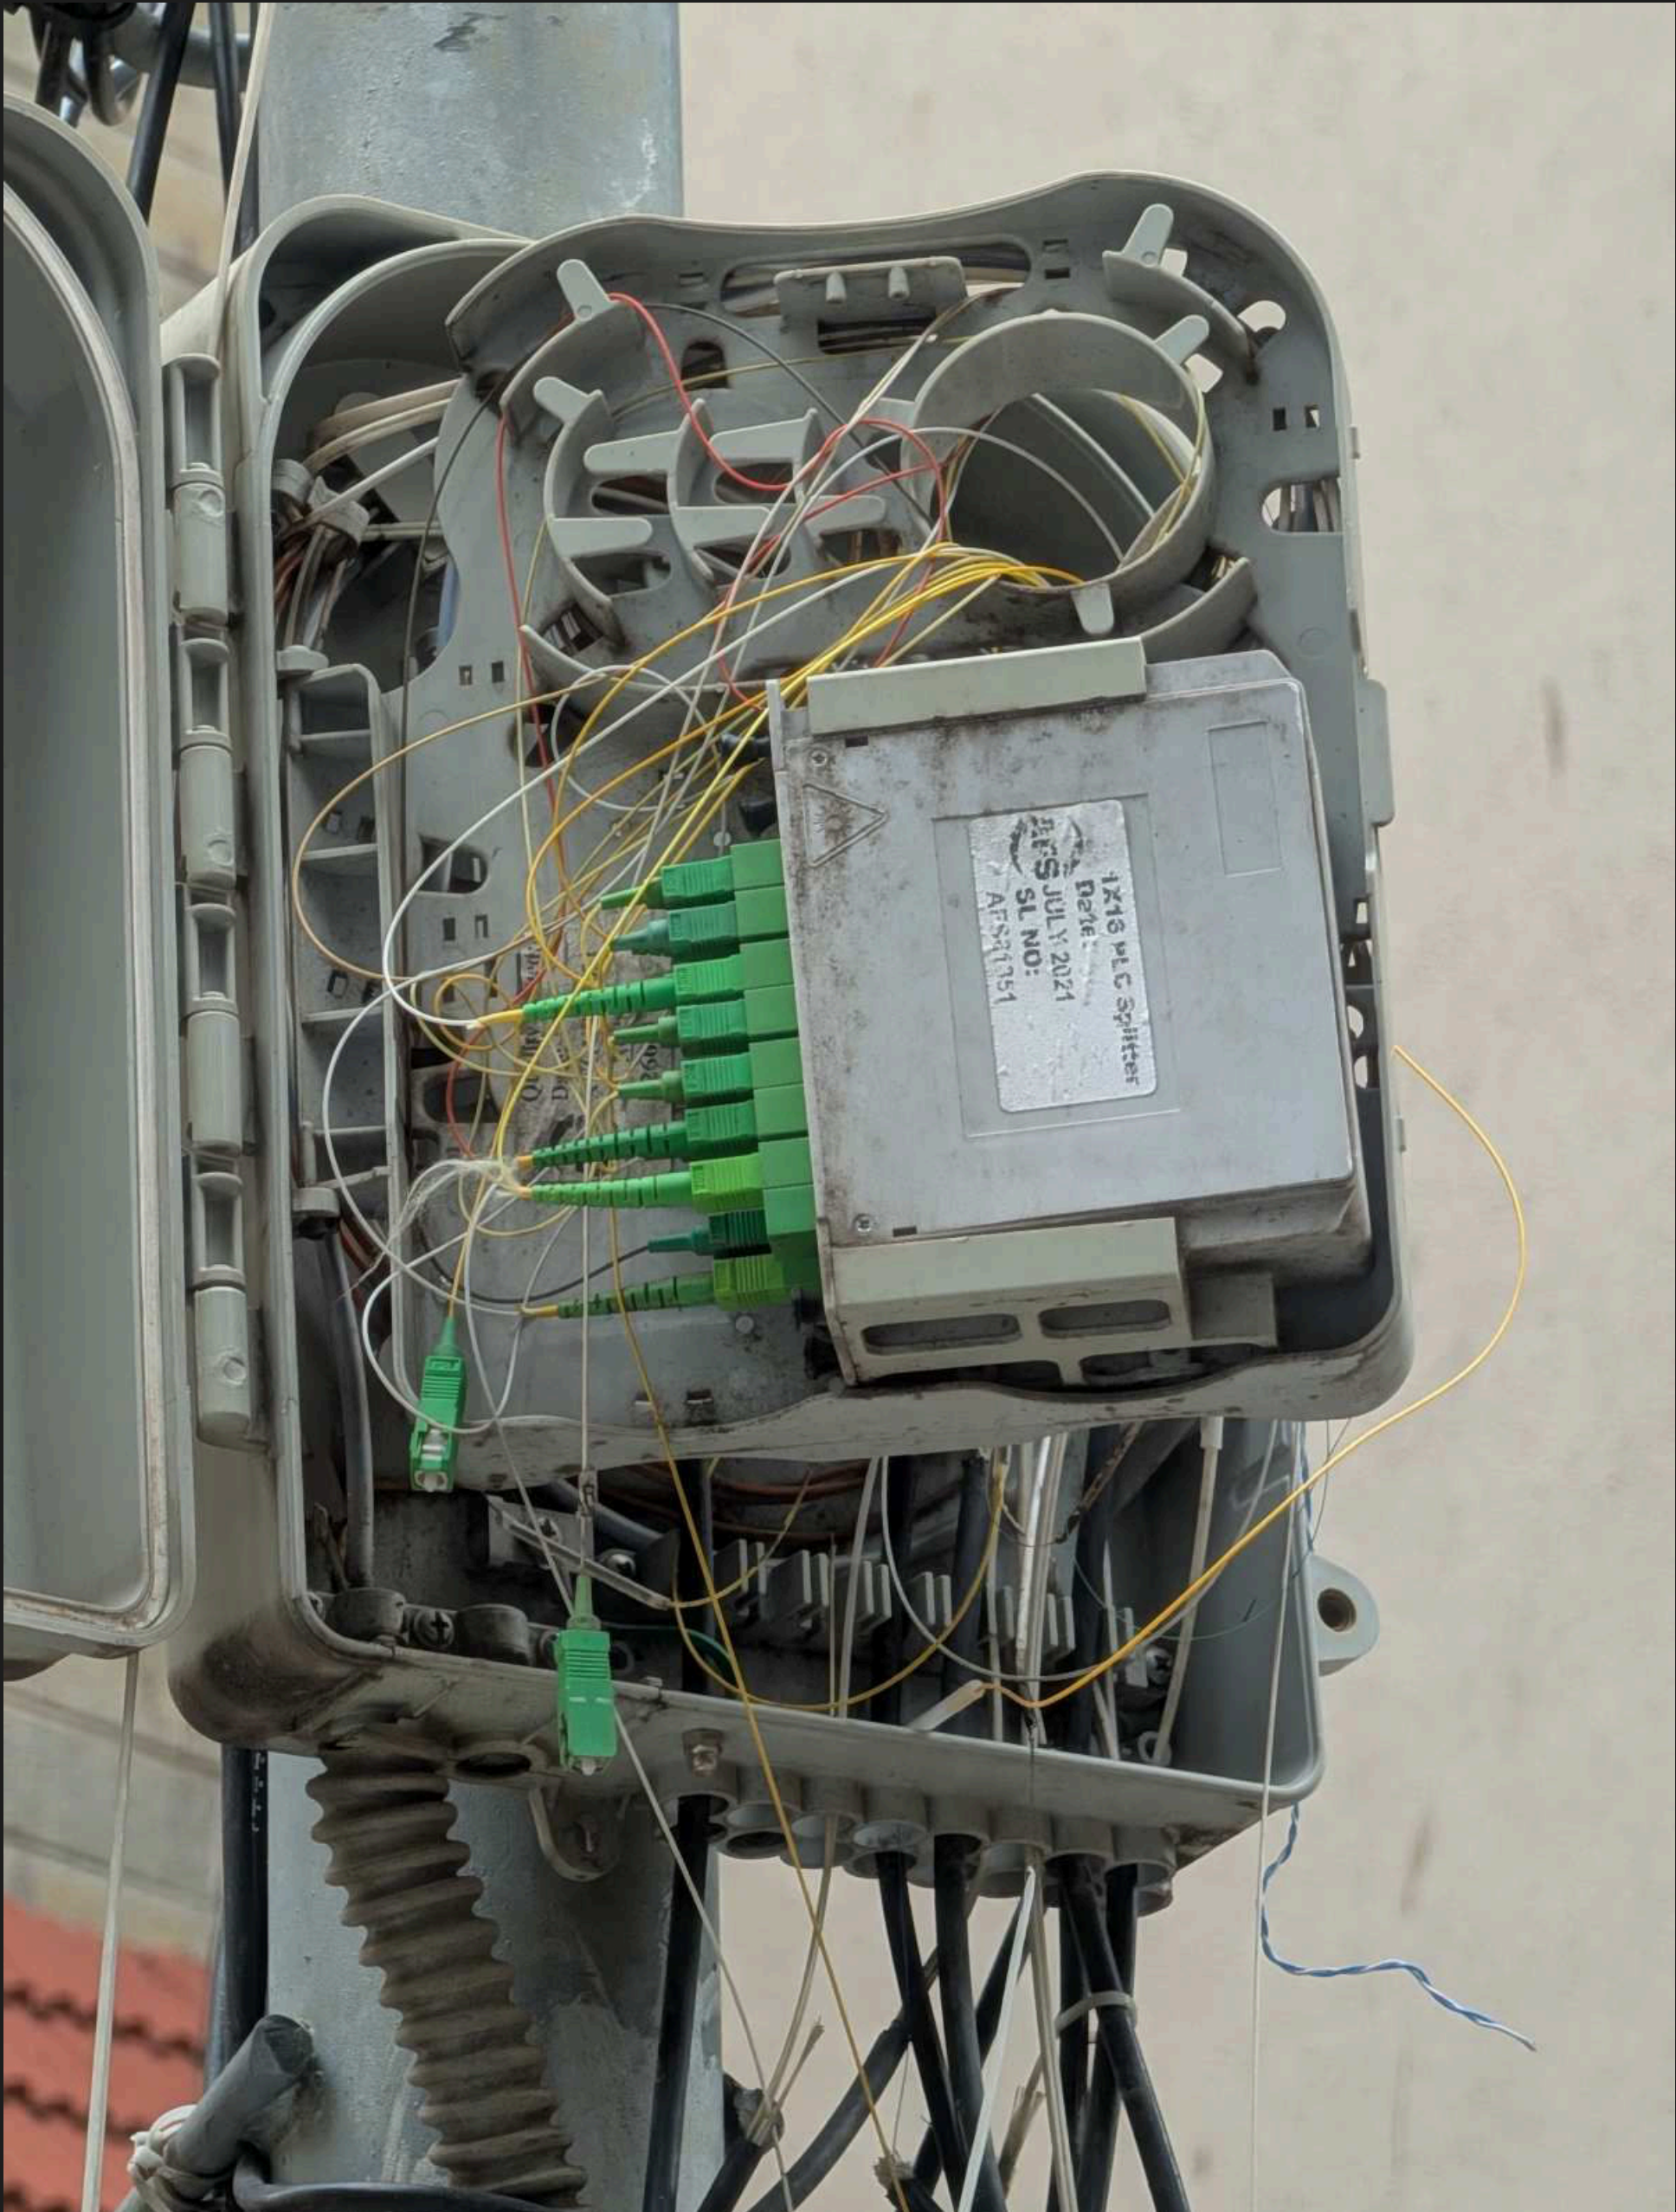

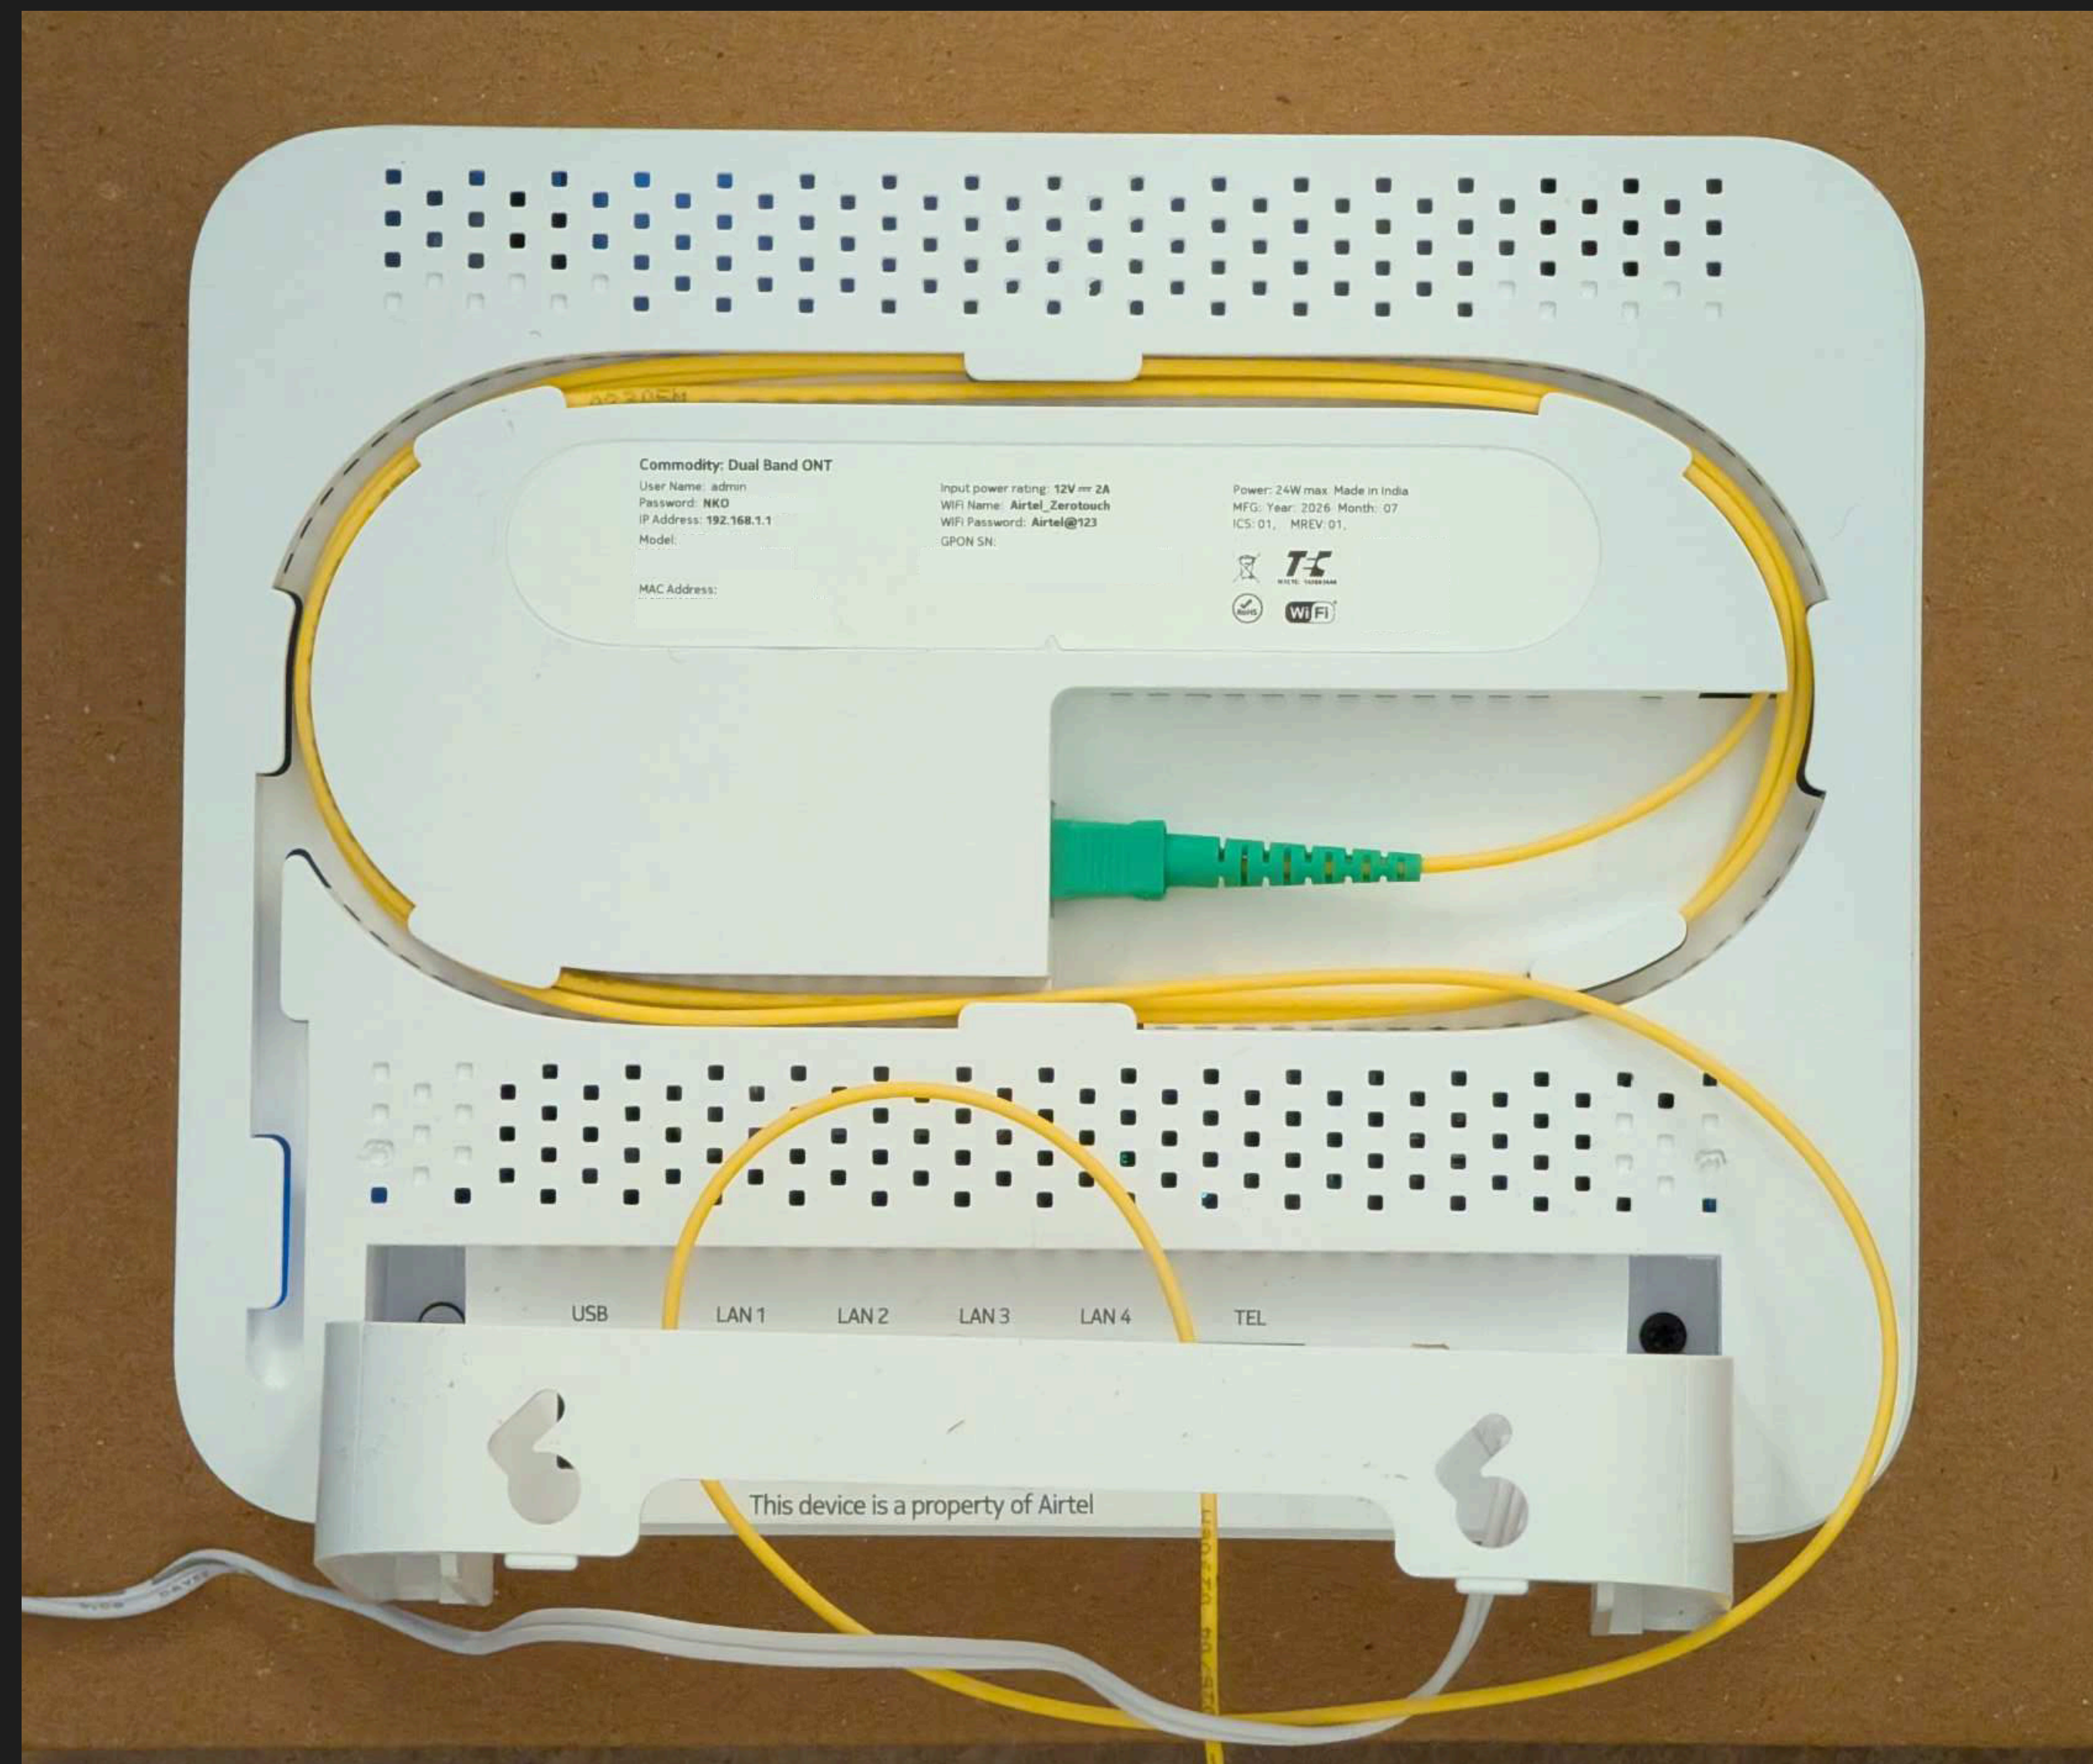

Commodity: Dual Band ONT

User Name: admin
Password: NKO
IP Address: 192.168.1.1
Model:

Input power rating: 12V ~ 2A
WiFi Name: Airtel_Zerotouch
WiFi Password: Airtel@123
GPON SN:

Power: 24W max. Made in India
MFG: Year: 2026 Month: 07
ICS: 01, MREV: 01.

MAC Address:

USB

LAN 1

LAN 2

LAN 3

LAN 4

Guys
2/24/2026, 12:48:10 AM

 Rithwik Jayasimha
Holy shit hahaha
2/24/2026, 12:53:18 AM

 Rithwik Jayasimha
I havent felt this excited in a while
2/24/2026, 12:53:24 AM

 Rithwik Jayasimha
Its obvious in himdsight
2/24/2026, 12:53:39 AM

 Rithwik Jayasimha
You arent going to believr what im discovering
2/24/2026, 12:48:24 AM

 Rithwik Jayasimha
Optical fiber networks are TOTALLY different
2/24/2026, 12:48:39 AM

 Rithwik Jayasimha
Than what we are used to
2/24/2026, 12:48:45 AM

 Rithwik Jayasimha
I suspect this is not as infeasible as we think
2/24/2026, 1:03:45 AM

 Rithwik Jayasimha
My spidey instincts are tingling
2/24/2026, 1:03:59 AM

 Rithwik Jayasimha
If you compromised the keys for every router, you could in theory wiretap every single user along your fiber line
2/24/2026, 1:03:30 AM
